To whom it may concern:

I believe that Newman Law would be an excellent candidate because of his excellent performance at TDSB – he is hard working, persevering and intelligent, he is a quick study, he is capable of understanding ideas quickly. I think he will be a good fit in a technical role.

Though he did not learn about C#, ASP, .NET before he entered TDSB, he was able to research knowledge and learn the new computer languages in a short period of time by himself with minimum supervision. He was able to finish his part of the code in the group project I assigned efficiently and in a timely manner. This project helped us to dramatically reduce the manual workload that we have been burdened with for some time. Plus, he is a great team player. As well, he handles our client's requests with diplomacy, and they are very pleased with his exceptional work maintaining and updating the TDSB website.

In our department, we foster a learning environment for our interns. Newman has been an enthusiastic learner and contributor to the team. He asks inquisitive and insightful questions.

Newman has been an excellent employee in his coop term. We wish Newman much success in his future job.

Sincerely,
Li Tian

TDSB
Sr. Technical Lead
